

Testimonial for Advanced Sounds Workshop. Aug. 12-21. 011

This workshop - the purification and Advanced Sounds combined - has been truly life-changing. Not only do I feel I know much better now what to do to keep my physical body in tune to support my spiritual evolution, but I have gained access and clarity within my subtle and causal bodies to a degree I've never imagined. Answers to questions I've carried for a very long time are emerging, and I see myself and the world around me glistening with love. The light in my perception has shifted, and there's no going back. I'm grateful for this beautiful center - so sattvic and graceful - and for the amazing InnerTuning community, with whom ^{both} the depths of inner work and the height of merriment feel easy and light. I know I've just scratched the surface of this work, but I can feel my heart has been etched deeply for good. ♡ - Bhakti
